When can I get the COVID-19 vaccine? –

The state of Missouri is currently in Phase 1A of its COVID-19 vaccine distribution plan.

Based on availability, and guidance from the Missouri Department of Health and Human Services (MO DHSS) and the Center for Disease Control (CDC), the Cass County Health Department will be overseeing the administration of COVID-19 vaccine, based on a pre-determined tier system. Individuals will be identified to receive the vaccine based on risk status and occupation.

To allow the process to flow efficiently for those in Cass County, the CCHD has developed a vaccine survey tool to inform residents when and where they might qualify to receive the COVID-19 vaccine. The survey asks for contact information, occupation, and pre-existing medical conditions. Responses from the survey will help the CCHD determine which phase of the state's vaccination plan each person falls under. Anyone who lives, works, or goes to school in Cass County and is interested in receiving the vaccine is encouraged to fill out the survey. To complete the survey, please visit www.casscounty.com/2450/COVID-19

Once the vaccine is made available for your tier, the health department will use your information from the survey to contact you with further instructions on how to schedule an appointment to receive your vaccination.

Recycling Service — Over the past few months, we have received several complaints from residents about Municipal Waste Services not collecting their recycling. We understand that these examples are not everyone but just wanted to show you a glimpse at what MWS staff are seeing a lot of when trying to collect recycling. MWS has let us know that if they find recycle bins that are filled with non-recyclables, they will not be picking them up. Please make sure that when you set out your recycling bin, that it contains only recyclable materials.

Utility Deadlines —We would like to make residents aware of the final deadlines for payment of past due January and February utility accounts.
